

Declaration of using generative AI tools (for students)

<p>Declaration of using generative AI tools (for students)</p>
<p><input checked="" type="checkbox"/> I/we have used generative AI as an aid/tool (please tick)</p> <p><input type="checkbox"/> I/we have <u>NOT</u> used generative AI as an aid/tool (please tick)</p> <p><i>If generative AI is permitted in the exam, but you haven't used it in your exam paper, you just need to tick the box stating that you have not used GAI. You don't have to fill in the rest.</i></p>
<p>List which GAI tools you have used and include the link to the platform (if possible):</p> <p>Grammarly for students(https://app.grammarly.com/) Perplexity(https://www.perplexity.ai/)</p>
<p>Describe how generative AI has been used in the exam paper:</p> <ol style="list-style-type: none"> 1) Purpose (what did you use the tool for?) <i>I used Grammarly to autocorrect my grammatical errors, typos, and suggest synonyms to ensure the smoothness of the writing. Perplexity.ai was used to format citations and debug the LaTeX report structure code.</i> 2) Work phase (when in the process did you use GAI?) <i>Grammarly worked throughout the paper by highlighting typos and errors in a browser window, much like the spellcheck feature in Word, while also being able to track grammar inconsistencies.</i> 3) What did you do with the output? (including any editing of or continued work on the output) <i>With Grammarly, I followed the guidelines on how to enhance my writing and revised sentences according to the suggested rules. With Perplexity.ai, I reviewed the suggestions and adjusted my report where it did not conflict with the existing structure, such as adding new packages or correcting citation format. I often asked how to format things in LaTeX.</i> <p><i>Please note: Content generated by GAI that is used as a source in the paper requires correct use of quotation marks and source referencing. Read the guidelines from Copenhagen University Library at KUnet here.</i></p>
